Dear William:

We have received your radio log of April 14th, correctly reflecting the programming we aired between 7:28 and 7:32.

In answer to your questions: WPGM operates at 1570 kz (and 96.7 FM) with a power output of 2500 watts (3000 FM). WPGM is on the air from 5:55 am to 11:10 pm (FM is on 24 hours a day). We are affiliated with the AP network as of July 19th. Our primary coverage area is Montour, Columbia, Union, Snyder and Northumberland counties, with fringe coverage to three or four other counties. This applies to AM as well as FM.

Our studios are located at 8 East Market Street in Danville. Our AM transmitter is located on Route 642 near Route 54 in Valley Township, 2 miles from the studio. Our FM transmitter is located on Montour Ridge, almost four miles from the studio, and our FM signal is micro-waved from the studio to the transmitter. We are not a directional station. We do have a sister station - WPEL AM and FM in Montrose Pa., which is 115 miles to our northeast. WPGM is a non-profit, non-commercial radio station which presents Christian music and Bible teaching programs. We receive one or two DX inquiries per month, with the farthest that I remember coming from North Carolina.

We trust that you will enjoy your hobby for many years to come.

Sincerely,

George
